

ALIGO COIN

Whitepaper Ver 1.0

What is BITCOIN ALIGO

Contents

1.	Key Components of BITCOIN ALIGO-----	1-2
2.	Coin Information and Distribution-----	1-3
3.	Business Roadmap-----	1-4
4.	NFT Collection-----	1-5
5.	Buy NFT cards-----	1-6
6.	BITCOIN ALIGO Game Introduction-----	1-7
7.	BITCOIN ALIGO mining-----	1-8
8.	Disclaimer-----	1-9
9.	Partners-----	1-10

I hope to be a member of the BITCOIN ALIGO family.

Greetings

Our BITCOIN ALIGO Foundation is launching BITCOIN ALIGO, thanks to the popularity of Bitcoin. On the side of our thinking and using money, it is expressed as a meaning of economics. It focuses on structuring the ecological structure into the game to drive the popularization of BITCOIN ALIGO.

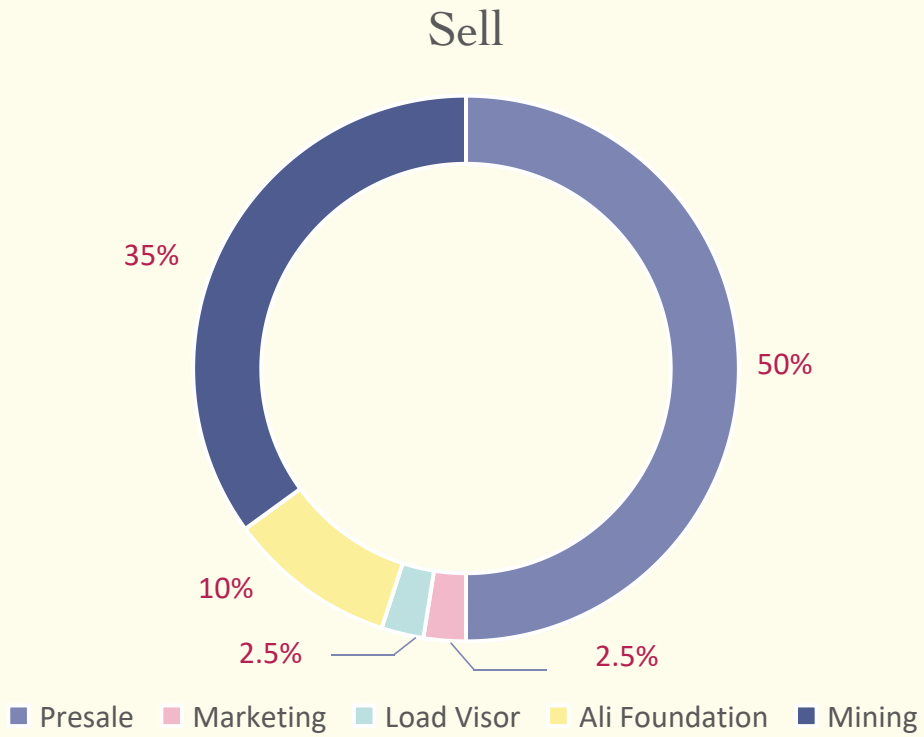

You can buy NFT cards with BRC-20 tokens, and you will use those cards to play games, mining and various interesting elements and game structure. Go beyond simple games and pursue reality games by incorporating the real world into the game.

NFT card collection

- The collection of Mainkun cats and Lusan sheep has adopted a POS approach through collaboration, and the foundation is fully supportive.
- Reality games have already structured the ecosystem of playing games and doing things, so they can prove the value of many assets.
- Mainkun NFT cards will receive random payments among more than 100 cards, and random cards are designed to be stronger through levels. The card is set to suit each feature and in reality games it will be connected to the account. You need this card to enter Metabus World. To purchase the card, you must purchase the BITCOIN ALIGO token!

Introduction to NFT Card

Welcome to our reality world. You will experience the metaverse world through a world of unique reality.

My NFT Card Show: In the reality world, you can see how powerful and rare your opponent's NFT card is. Show everyone my NFT card!

- In the reality world, you can go to the hunting ground in the village and earn points by hunting items and mining. Run to the reality world!
- Snatch my NFT card and the other party's NFT card through the war game. You can play the war game with anyone, and the NFT cards you learn through the war can also be sold in the market on the platform. Waging war with many people!
- Buy various NFT cards through the purchase of BITCOIN ALIGO Rare NFT cards may fall all into my hands.

- Background of the game-We conduct the game with a social background as the primary purpose of gameplay.

Game story

Register for Bitcoin Aligo Reality Zone with Nft Card When registering, enter Reality ZOOM after setting the password

Start by raising a Mekun cat! When you first start raising Mainkun cats, you need to raise them to make multiple connections to reality. Through the Happy Kun game, teach the Maine Kun cat education, hunting methods, feeding, games, etc., and let the Maine Kun cat enter the reality zone, and then join the Millennium Love Game Zone!

This game is played for two purposes: fun and game imitation.

Game story: Maine Kunkun cat Ali and Baba were adopted by a happy family when they were young, and they lived a happy life. Then one day, the demons and monsters appeared, and all happiness and peace were broken.

Ali and Baba are involved in monster wars over the enemy against the evil group. Ali and Baba fight with all their strength, but eventually Baba is captured, Ali surrenders, and then faces a tragic death

The monster's evil behavior has lasted for thousands of years since Baba, the cat girl, disappeared. In a blink of an eye, Ali died for thousands of years. One day, he couldn't forget Baba. Even though he died, Ali, who was full of resentment, finally became reincarnated.

At the same time, Baba also survived a thousand years and was reincarnated. The reincarnated Ali and Baba were reincarnated as cat-man warriors, and blood revenge began

A thousand years later, the earth was destroyed by monsters, and it was a barren land that could not be lived

Ali and Baba fight and fight again to execute the body and music group who do not know each other's whereabouts.

The characters in this game are male Mainkun cat Ali and female Mainkun cat Baba, and Ali and Baba reincarnated Catwoman and Catman as the protagonists. The curtain of this game has come to an end, and many other types of cats have appeared.

Mining

One of the ways for ordinary coin holders to obtain BITCOIN ALIGO coins is to mine BITCOIN ALIGO coins. In fact, the BITCOIN ALIGO coin is a form of coin that is mined and issued. However, some of the total issuance volume is distributed to participants in the form of mining. In fact, the mining supported by the BITCOIN ALIGO coin platform is not carried out in the form of general work certificates. BITCOIN ALIGO coin mining is carried out through the BITCOIN ALIGO coin mining APPLICATION installed by users using the platform on their tablet computers. At this time, users can perform certain activities within the installed application to prove the behavior of mining, and through the continuity of these behaviors, coins will be paid at a value proportional to the mining time. This mining method is like a work proof method called POW, because the behavior time itself in the mining application is regarded as a work behavior, so it can be called ProofOfStake (POT). BITCOIN ALIGO COIN is mined in the form of POS to increase the time of activity in the app of BITCOIN ALIGO COIN APPLICATION users and induce them to take certain actions that they need continuously. Of course, the reward for the POS will be the BITCOIN ALIGO coin, and due to the limit on the number of coins mined, the amount mined for the same behavior time will also be adjusted after a half-life.
